

Summer-student fellowships in Astrophysics and Instrumentation

The Centro de Estudios de Física del Cosmos de Aragón (CEFCA) is opening three positions for a Summer-student fellowship. The positions will be offered to students who want to start engaging into astrophysical research (2 positions) and engineering/astrophysical instrumentation (1 position).

About CEFCA

CEFCA (www.cefca.es) is a research institution located at the city of Teruel (Aragón, Spain), in charge of the construction and operation of the Javalambre Astrophysical Observatory (OAJ), where two different sky surveys will be carried out (J-PLUS and J-PAS; j-plus.es and j-pas.org). On top of leading the construction of the OAJ, their telescopes and panoramic instrumentation, CEFCA has a group of researchers, focused mainly on Cosmology and Galaxy Formation and Evolution.

About the fellowship

The fellowship will start on 1st July 2015 and finish on 11th September 2015.

Gross salary amounts to 700 Euro/month and a health insurance is included in the fellowship.

The deadline for submitting applications is 15th May 2015. Please visit
